REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 1-10 are allowable over the prior art because none of the prior art documents discloses or suggests a fluorine containing copolymer having a hydrocarbon vinyl ether compound unit having a functional group and tetrafluoroethylene unit, has the claimed characteristics such as a fluorine content of not less than 10% by weight, is insoluble in tetrahydropfuran and is crosslinkable (but is not yet crosslinked).

Note that the closest prior art, the EP0481478 reference, discloses the same composition having the claimed insoluble in THF, as in the claims. However, said copolymer is already in crosslinked form, therefore, it is not required the curing agent whereas the claimed composition comprising the crosslinkable fluorine containing copolymer having a functional group and a curing agent that is reactive and crosslink with the functional group of said copolymer .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Duc Truong whose telephone number is 571-272-1081. The examiner can normally be reached on Monday-Friday.
